PLAN · TEACH · TRACK

A PRODUCT STORY

How a teacher's planner grew into a learning platform.

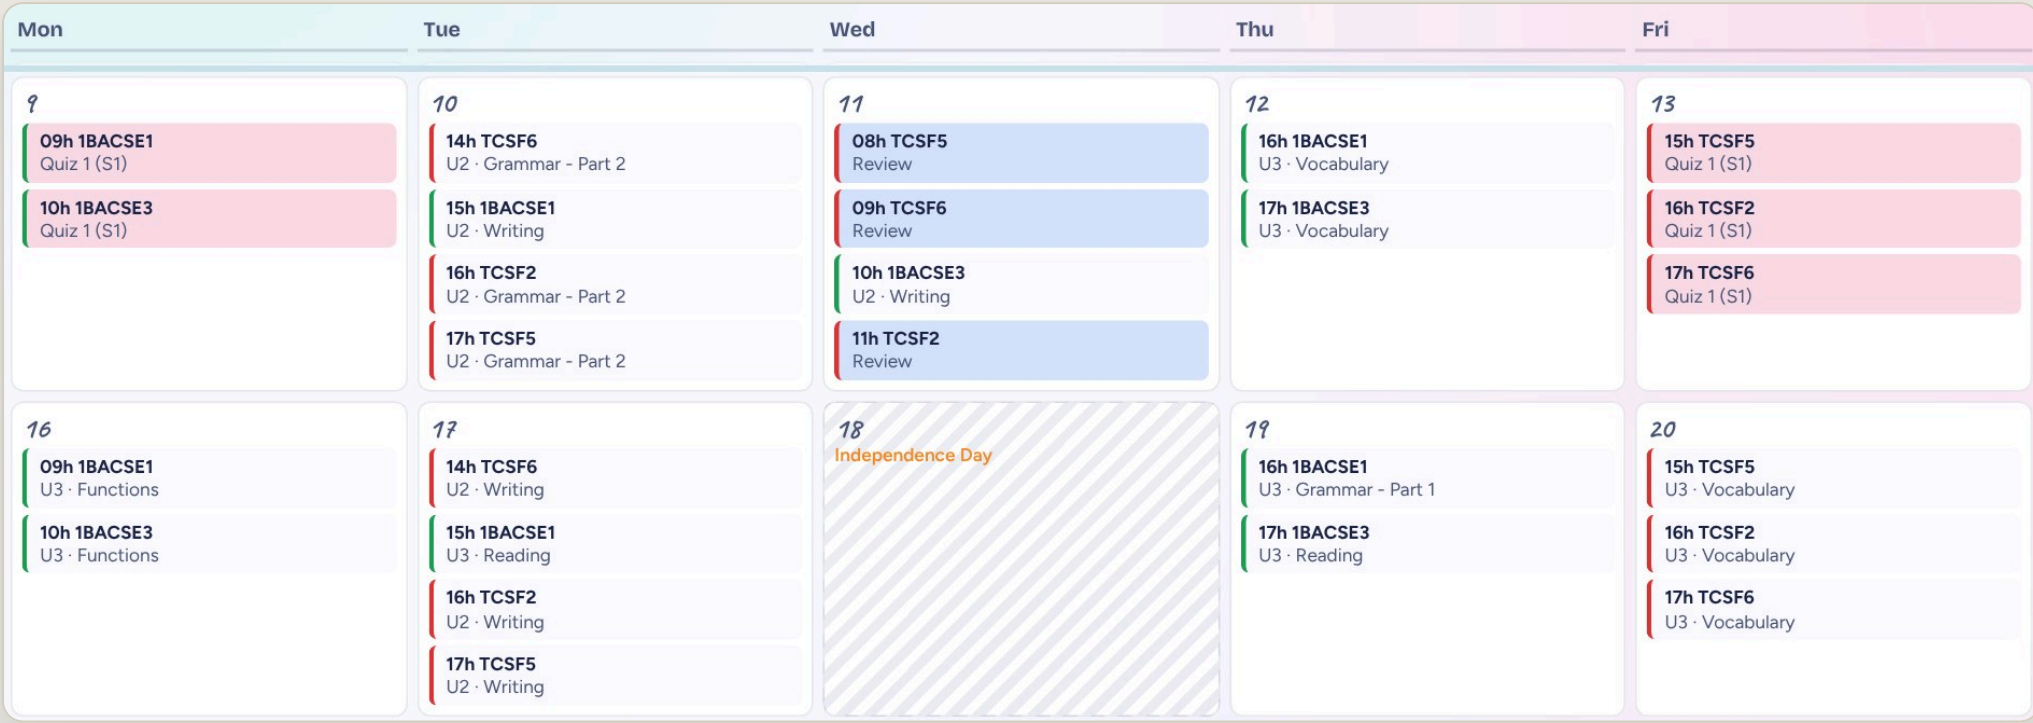

Youssef Nejjar · Teacher of English

01

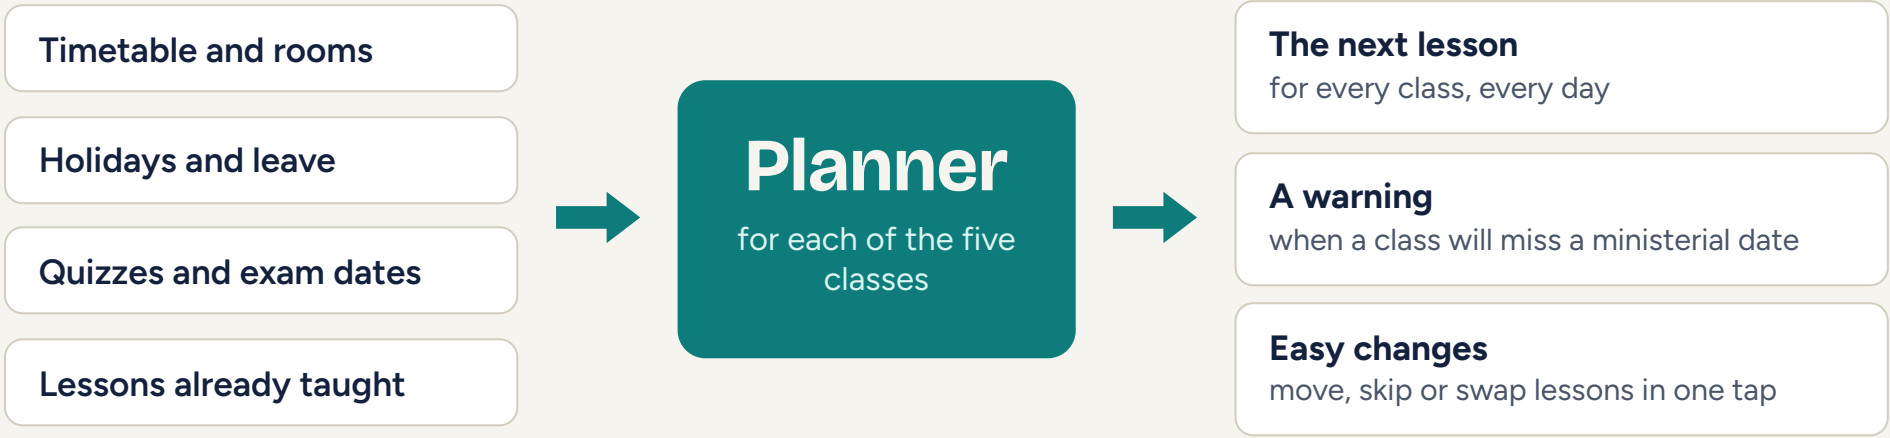

It started with a planner

The whole year on one screen. Every class, quiz, review and holiday.

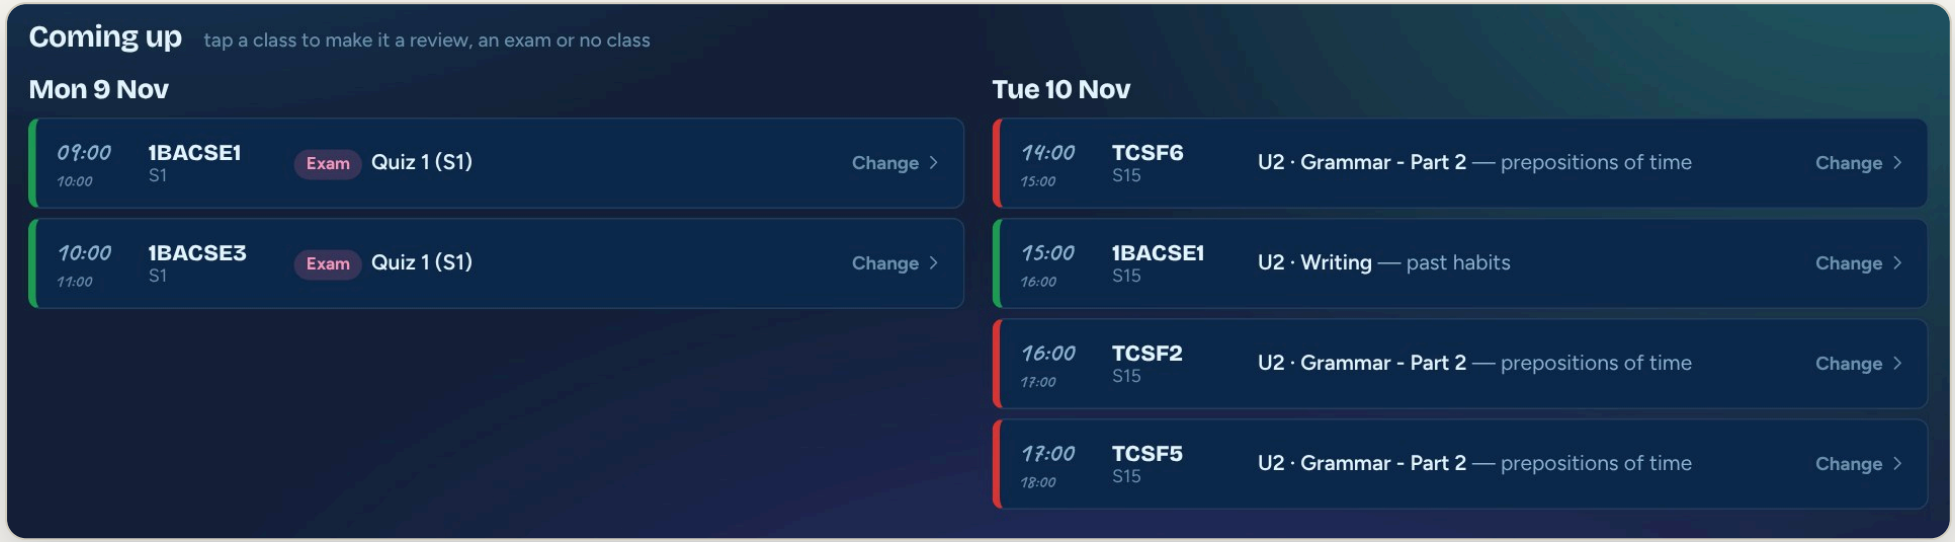

HOW THE PLANNER THINKS

Four inputs, one clear answer

THE TIMETABLE

The week ahead, class by class

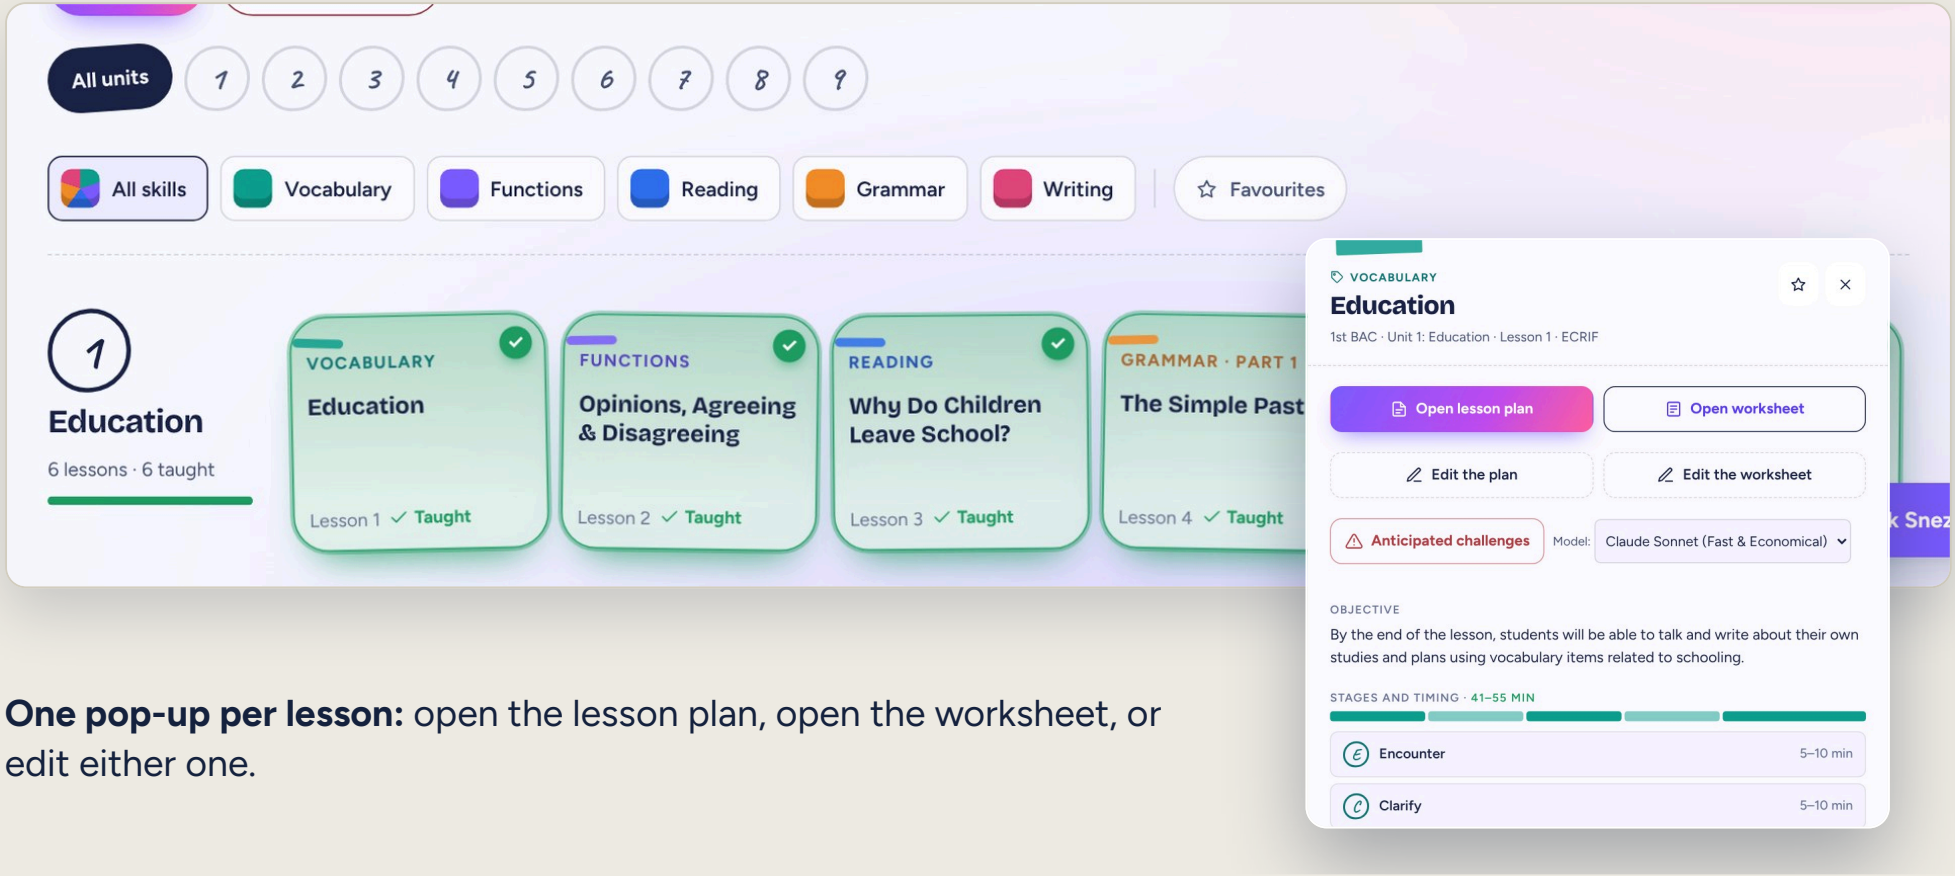

Each class follows its lessons in order. A holiday or leave day moves everything to the next class.

02

Then, everything in one place

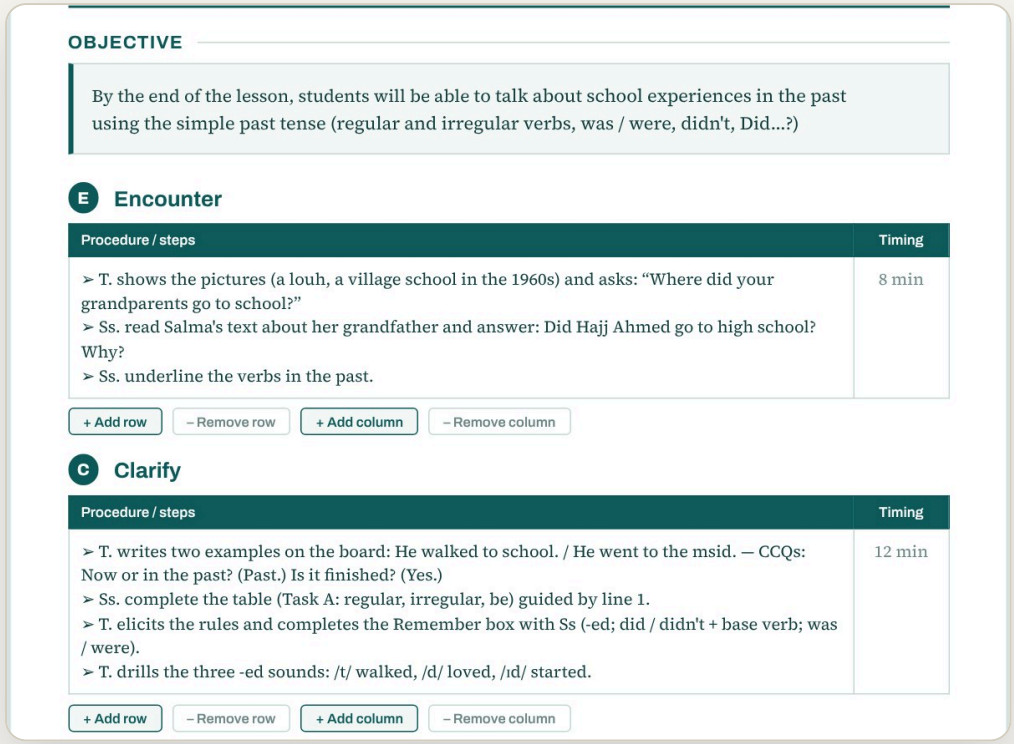

Plans, worksheets and boards side by side. Click a card, and everything opens.

One pop-up per lesson: open the lesson plan, open the worksheet, or edit either one.

INSIDE EVERY LESSON

55 minutes, five clear stages

OBJECTIVE

By the end of the lesson, students will be able to talk about school experiences in the past using the simple past tense (regular and irregular verbs, was / were, didn't, Did...?)

E Encounter

Procedure / steps	Timing
➢ T. shows the pictures (a louh, a village school in the 1960s) and asks: "Where did your grandparents go to school?" ➢ Ss. read Salma's text about her grandfather and answer: Did Hajj Ahmed go to high school? Why? ➢ Ss. underline the verbs in the past.	8 min

+ Add row | – Remove row | + Add column | – Remove column

C Clarify

Procedure / steps	Timing
➢ T. writes two examples on the board: He walked to school. / He went to the msid. — CCQs: Now or in the past? (Past.) Is it finished? (Yes.) ➢ Ss. complete the table (Task A: regular, irregular, be) guided by line 1. ➢ T. elicits the rules and completes the Remember box with Ss (-ed; did / didn't + base verb; was / were). ➢ T. drills the three -ed sounds: /t/ walked, /d/ loved, /ɪd/ started.	12 min

+ Add row | – Remove row | + Add column | – Remove column

E **Encounter** — 8 min

C **Clarify** — 12 min

R **Remember** — 10 min

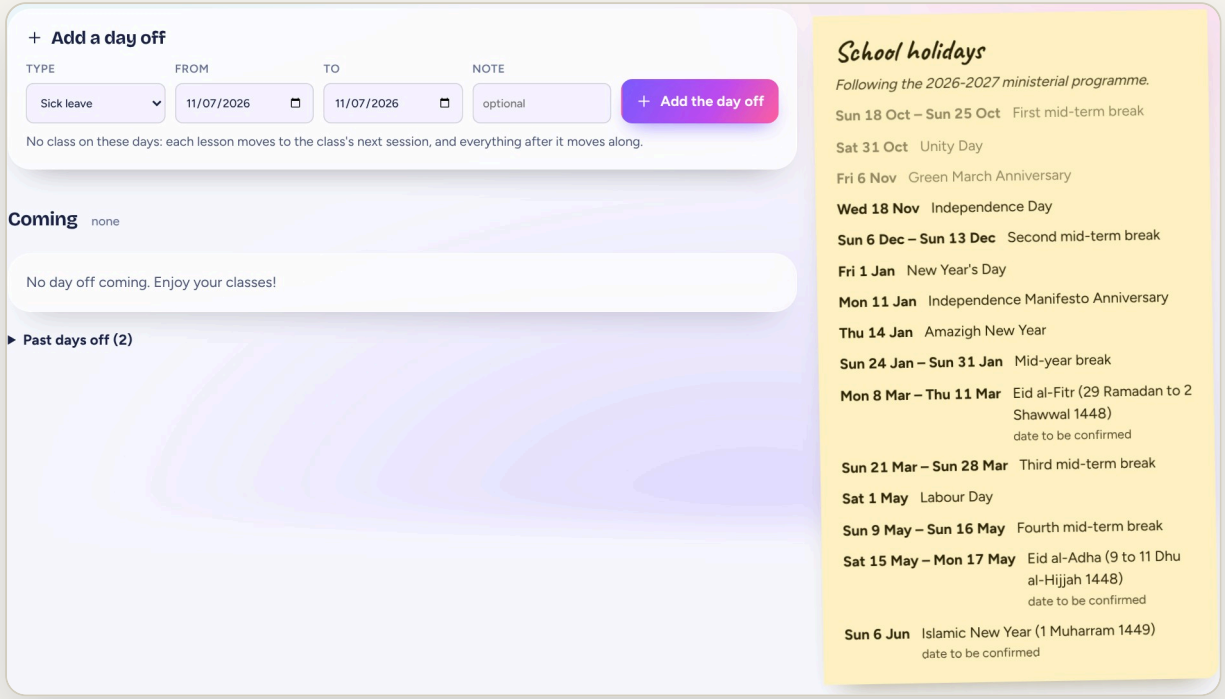

I **Internalize** — 12 min

F **Fluently use** — 13 min

Example: Simple Past, 1st Bac. Every lesson also has its own worksheet.

DAYS OFF

A missed class never breaks the plan

How it works

1. Add a day off: sick leave, a strike or a meeting.
2. Every class moves to its next session by itself.
3. Everything after it shifts along. Planner and timetable update.

Why it matters

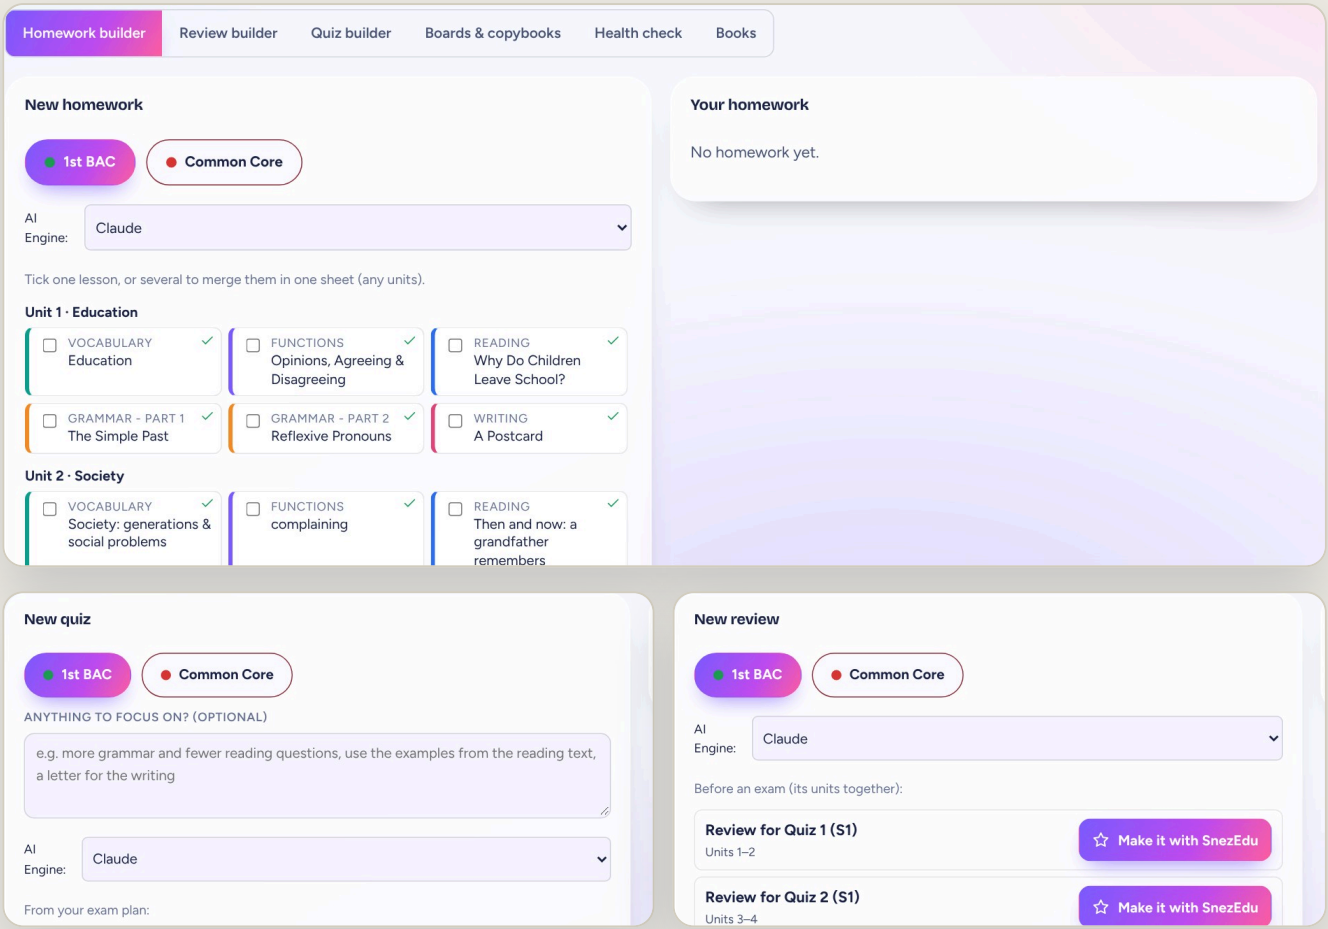

Lessons are lost all year. Without this, the plan is wrong after the first missed class. The ministry holidays are already in.

03

Then, I made it smart

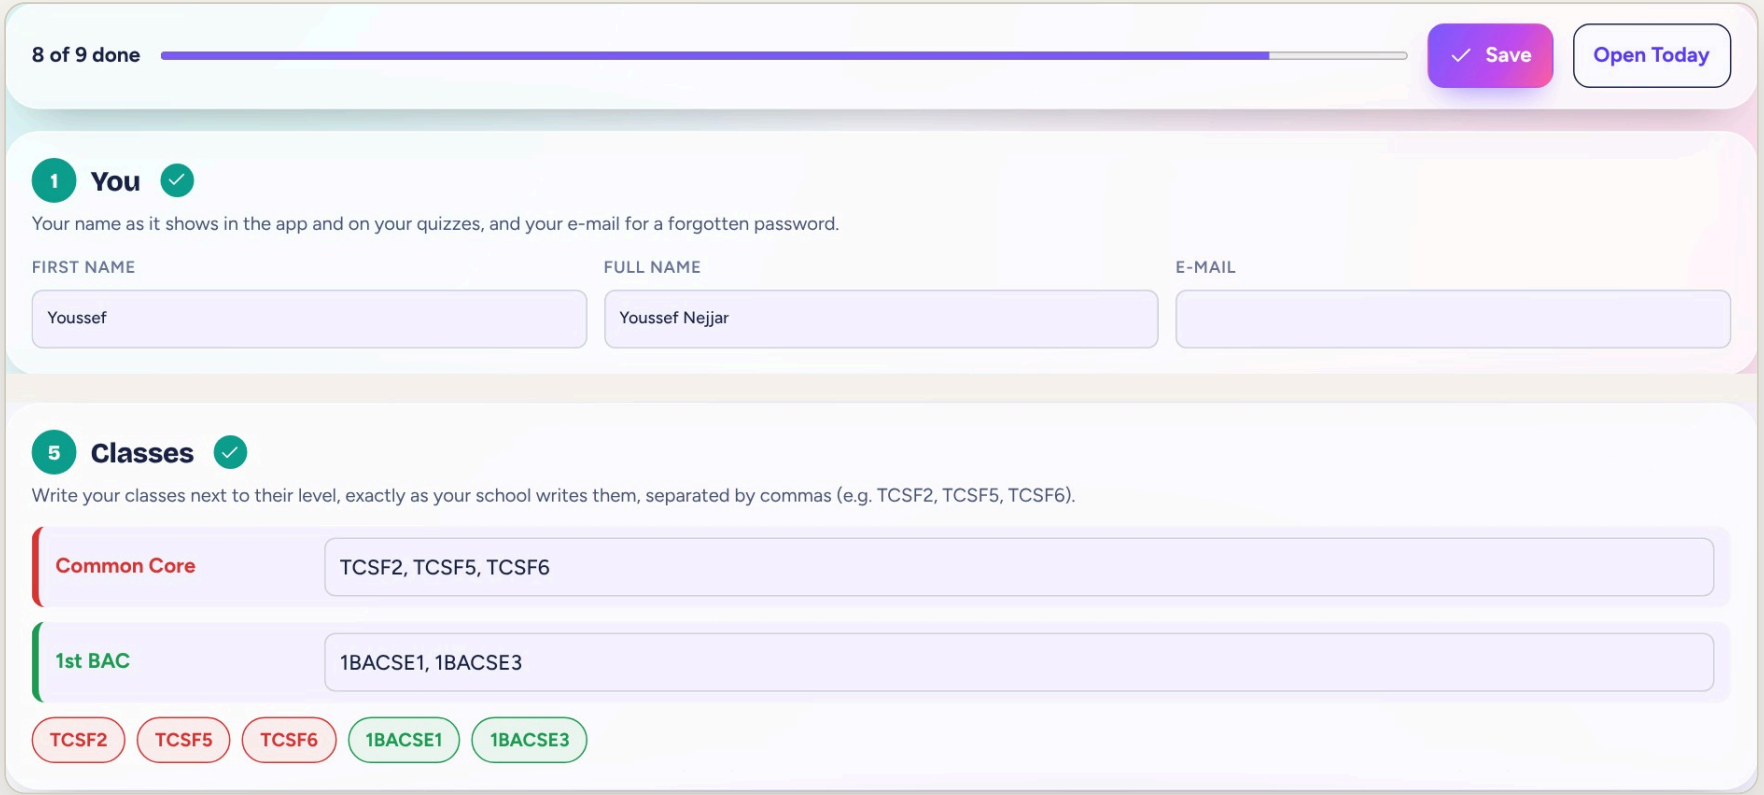

Six tools in one place. AI drafts, I check every line.

- Homework builder
- Review builder
- Quiz builder
- Boards & copybooks
- Health check
- Books

FOR TEACHERS

Sign in, then set up in one page

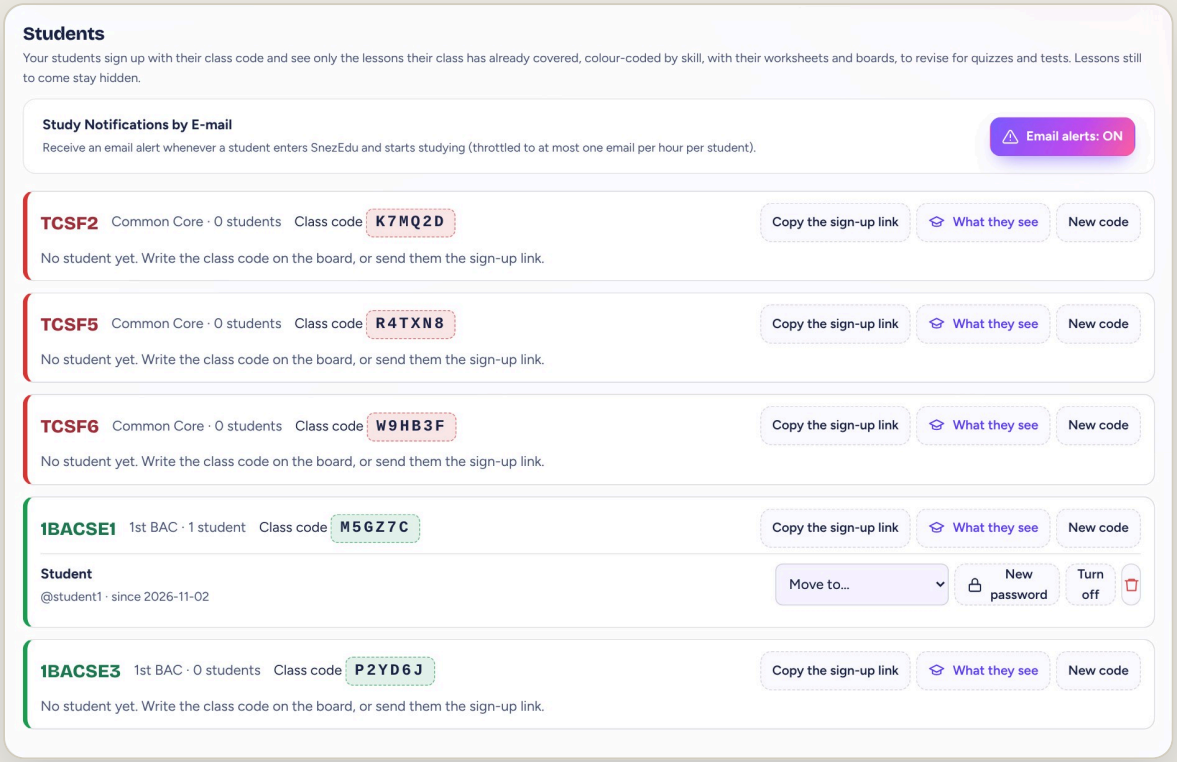

1 Create your account

2 Fill in Setup once

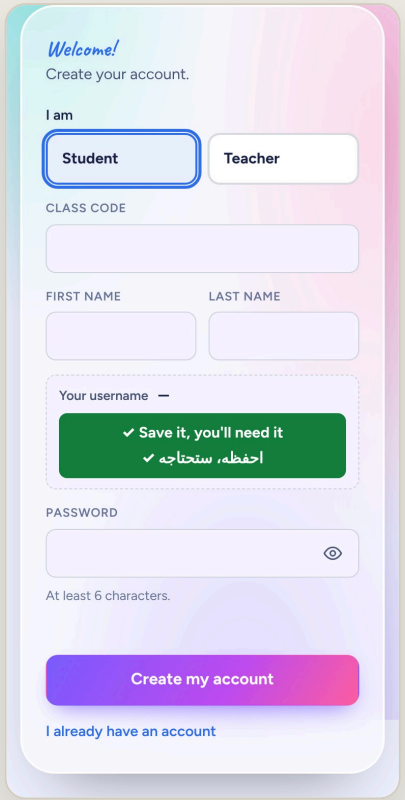

3 Today, timetable and planner fill themselves

FOR TEACHERS AND STUDENTS

Every class has its own code

Teacher: a code per class, a sign-up link, a preview and a new-code button.

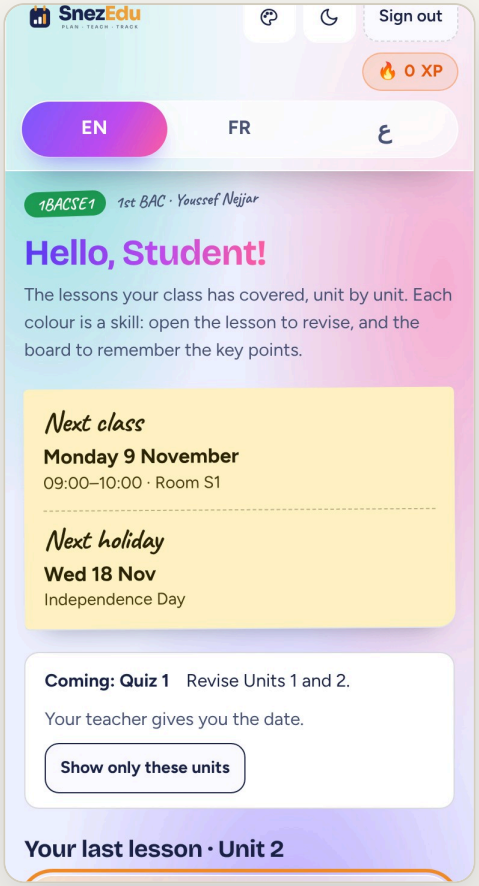

Student: types the code once.

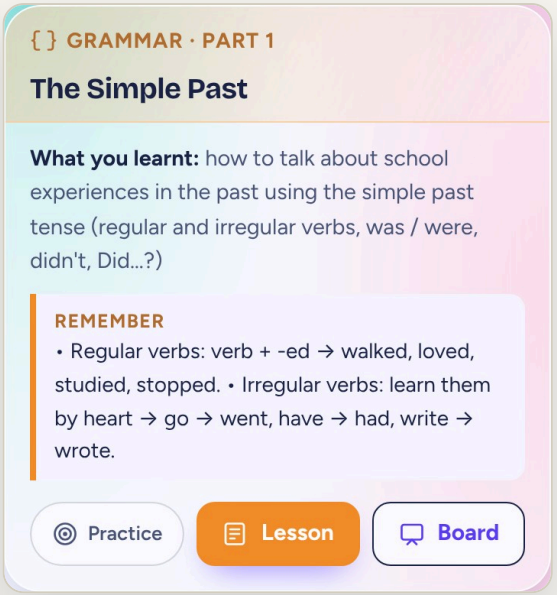

FOR STUDENTS

What a student sees on the phone

Next class and next holiday on a sticky note. Then each lesson already taught, with three buttons.

Practice **Lesson** **Board**

One card per lesson: Practice, Lesson, Board.

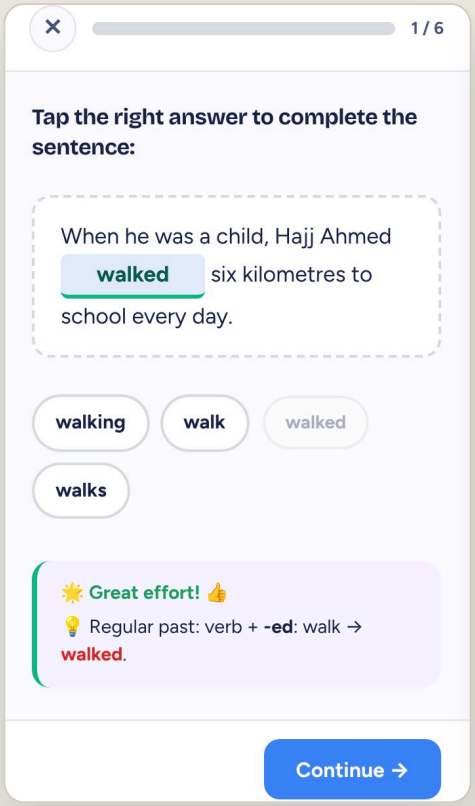

04

Then, I opened the door to students

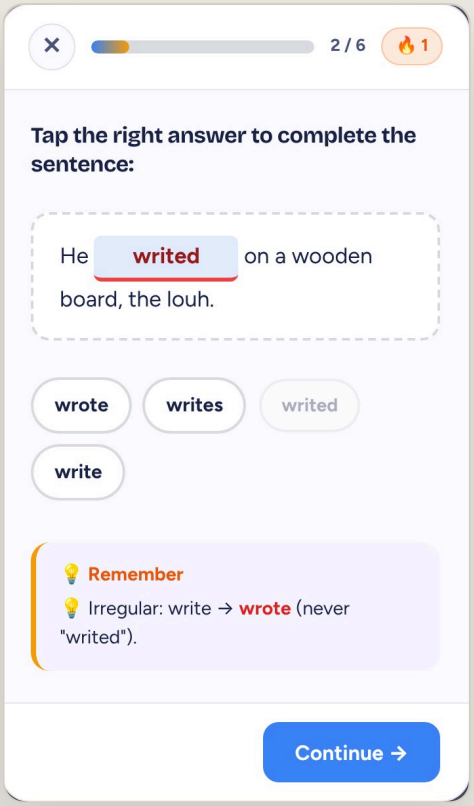

Every answer is corrected on the spot, with the rule in one line.

+10 XP per answer | Streaks | Medals

English · French · Arabic

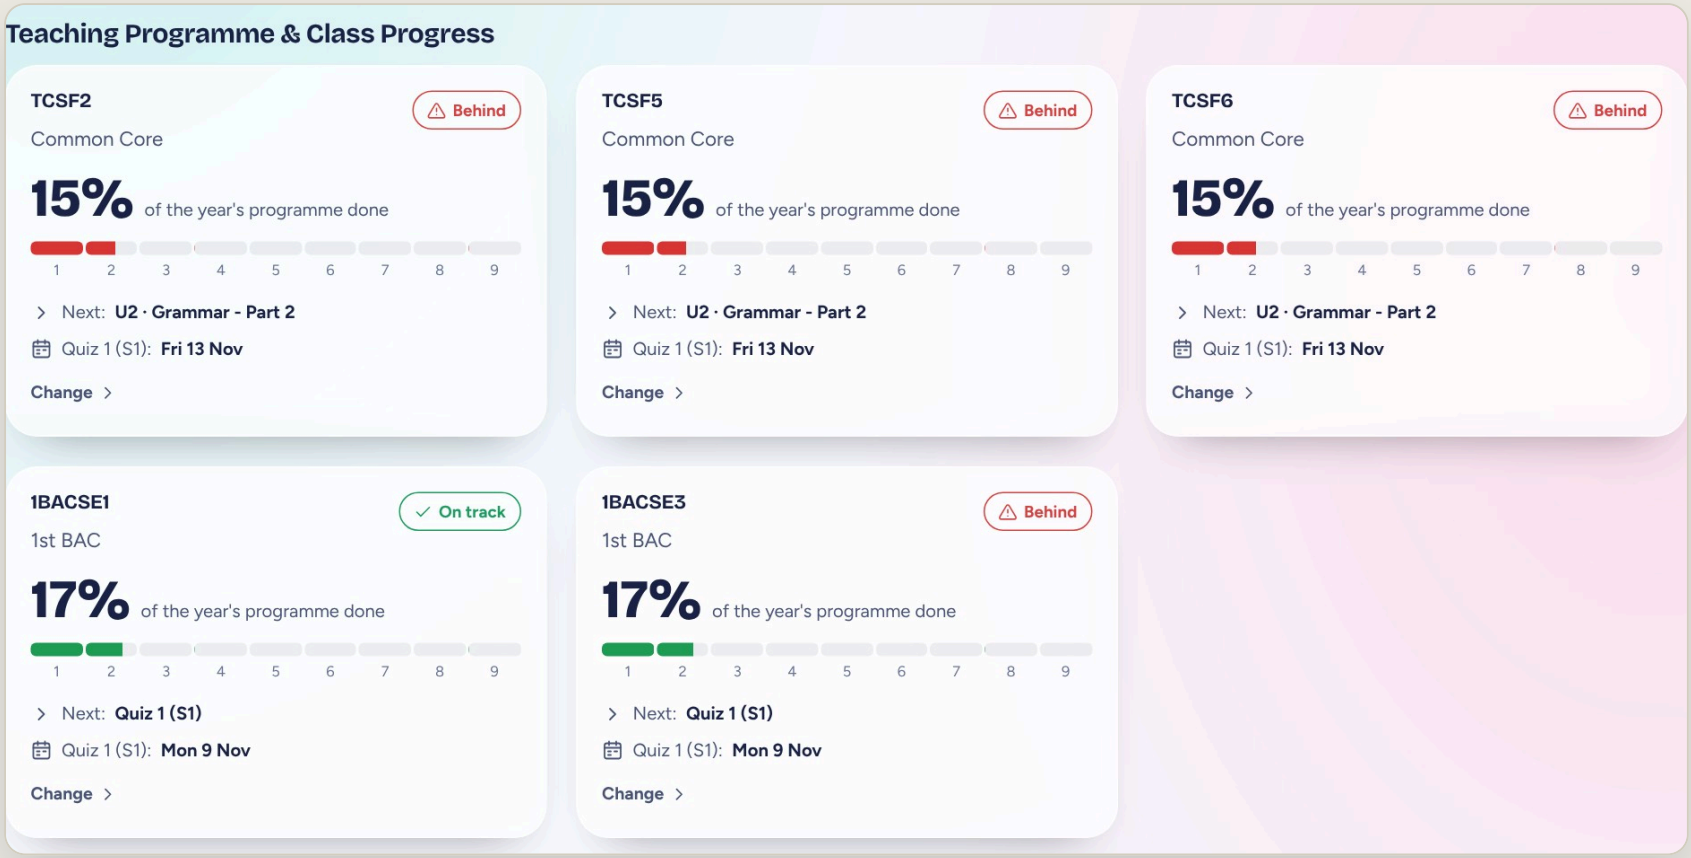

Right: a short note confirms it.

Wrong: the rule is shown, so the student learns.

FOR TEACHERS

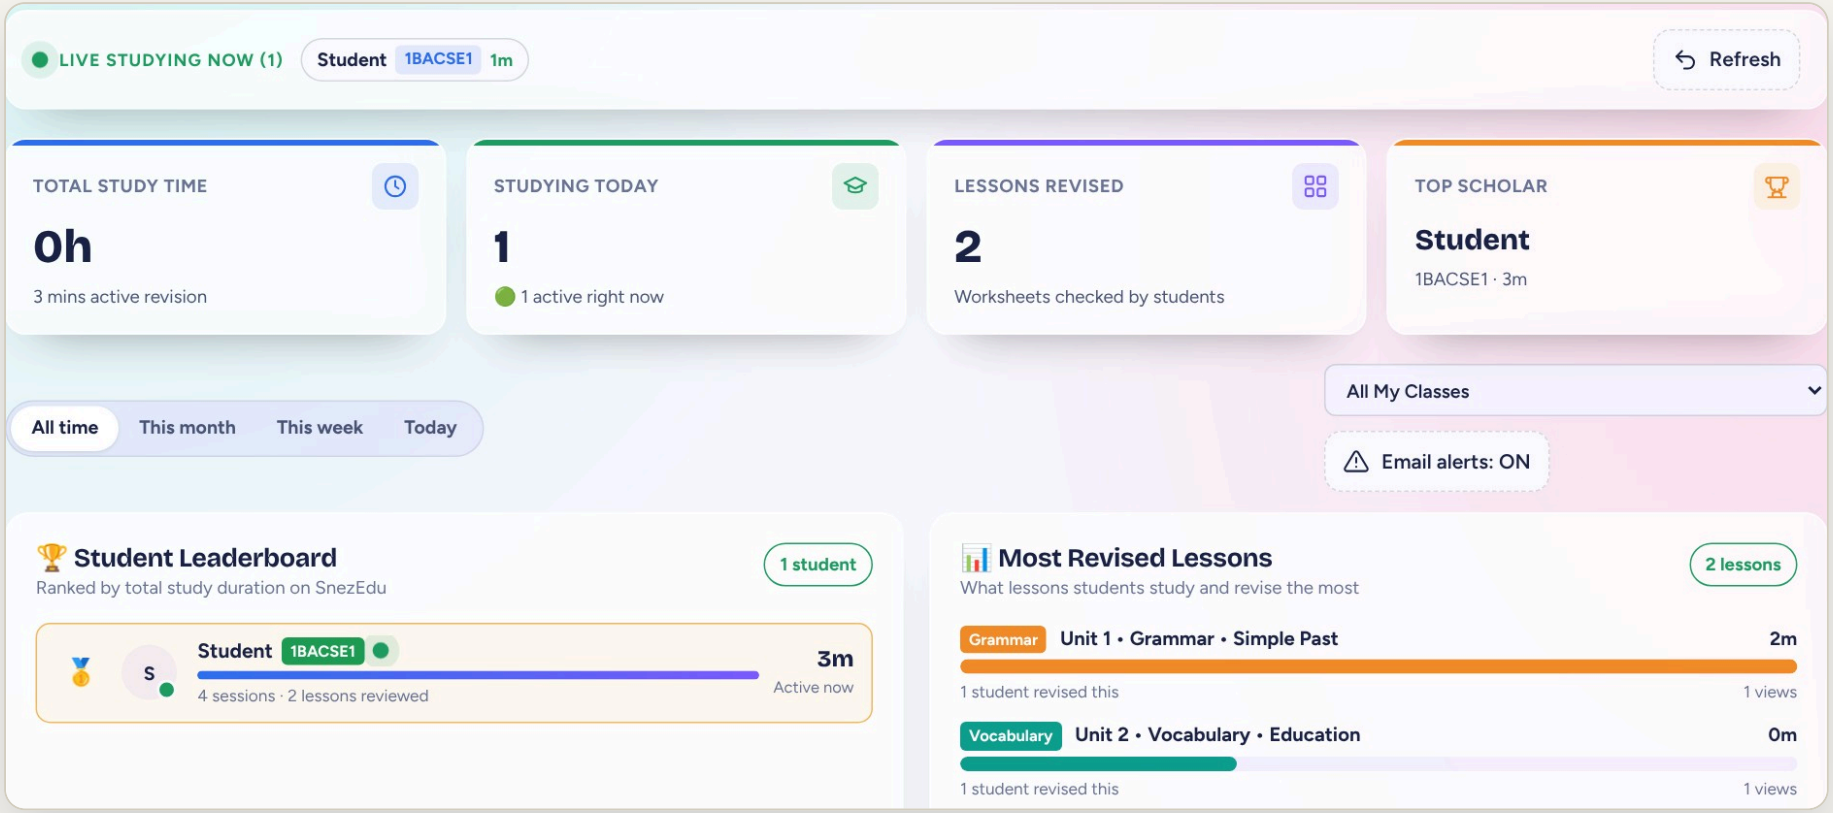

Dashboard: where each class stands

One card per class: how much of the year is done, on track or behind, and what comes next.

FOR TEACHERS

Students Progress: who studies, and how well

Live study monitor, a leaderboard, the most revised lessons and topic mastery.

IN SHORT

Two dashboards, one platform

Teachers have

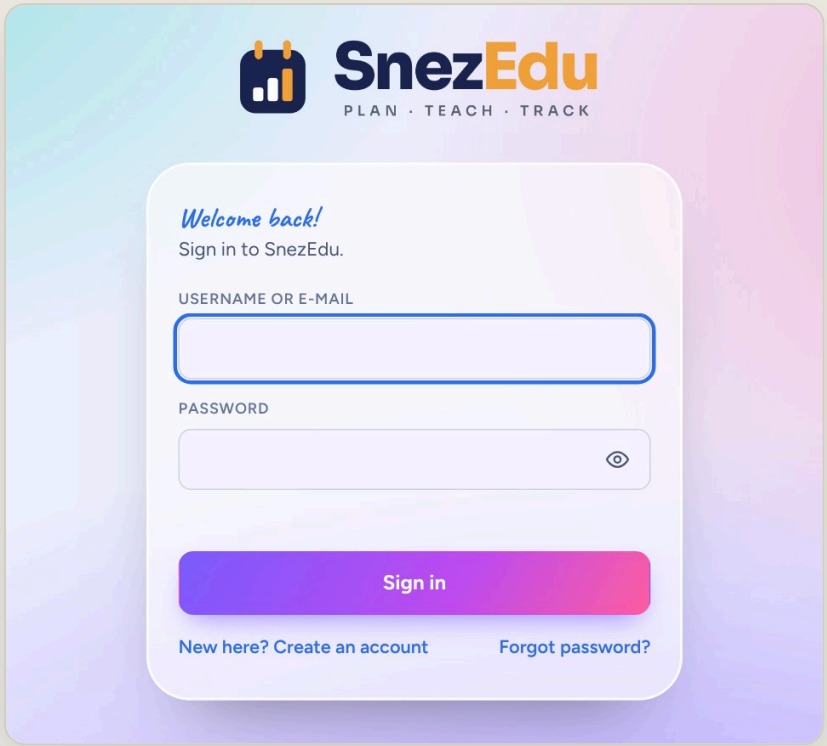

- Planner and timetable for the whole year
- Library of plans, worksheets and boards
- AI drafts of quizzes, reviews and homework
- Dashboard: progress and pace of every class
- Students Progress: who studies and what they master

Students have

- Lessons already taught, by unit and skill
- Worksheets and boards to revise
- Practice with a one-line explanation
- XP, streaks and medals
- English, French or Arabic, light or night

Teachers plan and check. Students revise and practise. Both use the same platform.

One sign-in, on any device, day or night

Light mode

Night mode

Make it yours

Night mode, six palettes

Teachers and students pick the look they like.

Make it yours

Light mode, bright and calm

The same screens, ready for the classroom or for print.

SnezEdu

PLAN · TEACH · TRACK

One platform, three promises

1

Plan the whole year.

2

Find every lesson in one place.

3

Keep every student learning.

Youssef Nejjar · Teacher of English
